PUTNAM'S MONTHLY:

AN ORIGINAL

A M E R I C A N M A G A Z I N E

With the present number commetces the Eighth Volume of
"Putnam's Monthly."

The invisible is have anly to repeat the expression of their
cornial acknowledgments of the continued favor with which
their efforts have been received by the public; and of their untiring resolution to continue to diserve it.

The prosperity of the Magazine is constantly increasing. And
this prosperity has been ancieved by the presentation of the
graviest variety of popular literary entertainment; by a manly
and se erous citieties of publics, backs and society; by the
most splitted sketches of travel and adventure; by a copular
teatment of scientific subjects, and, in getheral, by the most
watchtul regard to all national and coten prary interests,
PUTNAM'S MONTHLY is neither a story book nor a partial jourpul. It has ordinous and principles. It seems to amuse and instruct; but it hopes, also, to be foit as the friend of good morals,
secund learning, and the most libers and intelligent discussion.

"With these three important enterprises on their hands, Mesers Dix & Edwards have the energy, the tasts, liberality, capitsl, and skill, to wan themselves a high place in the roll of his orable american publishers, and that they will do so come who know them will doubt." Bar got Dally Mercury.

"Publishing-cay with Dix & Edwards is what that menthly occasion used to be with Colbur. in the painw days of the 'New Monthly'—a time of rejoicing to the lovers of good fresh, and vital periodical literature. This interesting firm, from their new Broadway bureau, simultaneously issue the best American measurine, the best reprint from the English press and the best juvenile periodical extent—"Putnama Monthly," Household Worde, and 'The Schoolfellow.' These three jublica' in entirely meet the literary wants of a family, from the educated father to the child who has just learned to read; tegether they form a monthly treat, of which the intelligent and tasteful should everywhere partake."

JOHN HALIFAX, GENTLEMAN.

By the suther of the "Head of the Family," "Olive," "The Olivies," "Agatta's Hierband," "A Hero," &c. Evo. paper, Scenta.

"In 'John Halifax' the author has made a considerable advate on the previous works. The great source of interest is an in proved and masterly execution emproyed upon more substantial matter. Every character is consistently conceived, and very truthfully delineated; the incidents, the scenes, the still fee are painted with a power that sustains the attention of the reader."

"The story is interesting. The attachment between John Halifax and his wife is beautifally panted, as are the pictures of their demestic file, and the growing up of their children. The strife helween the two brothers when they discover they are each attached to the same object, is vigorously drawn, and the central of the book is beautiful and touching."

CLARA;

Or. SLAVE LIFE IN EUROPE. A Novel. With a Preface, by Six ARCHIBALD ALISON, Bart Large 12mo, Muslim, el.

"M. Haklander unites to himself several of the most striking qualities of our greatest cotemporary novalists. In graphic descriptions of character in all the grades of society, and occasional pathetic power he recalls blickens; in the evolving of the sory, when to all appearance hopsiessly involved, he resembles Bulwer. The regulation and success of this work on the Continent has been unprecedented, and rivuls that of Bulwer, Dickens, or Disracili in this country, or Ceoper in America. A translation of this highly popular noval, if done by kindred genius, would be one of the most popular works of fiction of our times.

"An original, varied, spinited story, boildly conceived, artfully constructed, piessantly told." [London Leader.

"Some of Baron von Brand's feats are told in a maniner calculated to excite a strong interest. It will amnes any novel reader of any country." [London Athensum.

"Its interest is far superior to that of ordinary English cales, both from the comparative movelty of the scenes and characters, and the clearness and vivacity with which they are described. As a representative of modern life and manners on the Continent it deserves the high piace it has attained."

"One of the most masterly and delightful works of fiction with which we are acquainted."

[Morning Post.

"All the world will want to read this work." [Adias.

THE NEW AGE OF GOLD THE LIFE AND ADVENTURES OF ROBERT DERYER ROMAISE.

Written by Hissaelf.

It would be impossible to give any adequate idea of this remarkable book, either by description or newspaper notices; but from all quarters it has received the most hearty commendation—and if any work of modern date has the power to facilitate—and if any work of modern date has the power to facilitate the reader during these string times, that work is the Adventures of Roma no in company with his charming Alice.

A new Adam and Eve in a new Edem, their fortunes and purmits are narrated with the utmost spirit and in a style delightfully fresh and piquent.

A great many poor and worthless books have crewded the market, and satisfed even the lovers of fixtism. But a storry like this can near be confounded with the commonplace issues of the day. It will be read for years to come, as the very best description of inland life since Robinson Cresos.

A Novel. By Prencis Parkmen. Author of "The Conspisacy of Pontise." &c. In one vol. 12mo. Price 81 25.

Mr. Purkman has aiready distinguished himself in the field of authorship. His "Conspiracy of Pontises" is one of the most valuable me readable contributions to American History. This, valuable me readable contributions to American History. This, his first attempt at nevel writing, proves him to be a worthy rival of Cooper, Pauliting and Stemms. The story is full of incident, the piet well contributed and executed, and the characteristic-like. We found airresives constrained by the interest of the book to read it through at a sitting, and we rose from the pleasure with the loops that the suther might soon entertain us with amother work of equal attraction."
